

Date 1 June 2011

Myriad Genetics Completes Acquisition of Rules-Based Medicine (RBM). Psynova Neurotech Ltd has become a wholly owned subsidiary of RBM, as it has acquired all of its stock.

Myriad Genetics, Inc. (Nasdaq:MYGN) announced that it has completed the previously announced acquisition of Rules-Based Medicine (RBM) for approximately \$80 million in cash.

Rules-Based Medicine is a leader in the discovery of novel biomarkers for its pharmaceutical and biotechnology partners utilizing its proprietary multiplex immunoassay technology. RBM's protein detection platform provides pharmaceutical companies with critical information that can accelerate drug development research and improve clinical trial outcomes. This proprietary platform has also yielded a strong internal pipeline with eight new molecular diagnostic product candidates in development for patients suffering from psychiatric disorders, infectious diseases and inflammatory diseases.

Rules-Based Medicine will operate as a wholly-owned subsidiary. RBM will perform companion diagnostic discovery and development in collaboration with its pharmaceutical partners in addition to research projects for internal development.

### **About Myriad Genetics**

Myriad Genetics, Inc. (Nasdaq:MYGN) is a leading molecular diagnostic company dedicated to developing and marketing novel predictive, personalized and prognostic medicine products to assess a person's risk of developing disease and guide treatment decisions. Myriad's portfolio of nine molecular diagnostic products are based on an understanding of the role genes play in human disease and were developed with a focus on improving an individual's decision making process for monitoring and treating disease. With approximately 1,000 employees, Myriad is working on strategic initiatives, including new product introductions, companion diagnostics, and international expansion, to take advantage of significant growth opportunities.
